

EARNING SCREEN TIME

The rule in your house is that you do chores to earn screen time. The chart below shows how much screen time you earn for each chore.

Chore	Screen Time Earned	Number of Times Chore Must be Done Each Week
Vacuum	30 mins	Once
Wash Floors	30 mins	Every two weeks
Wash Dishes	15 mins	Every night
Clean Bathrooms (you have two)	30 mins each	Once
Laundry	15 mins per load	Three loads per week
Take out garbage and recycling	10 mins	Once per week
Clean Kitchen	20 mins per clean	Twice a week

You would prefer not to do any chores, but there are two 30-minute shows you LOVE, and you also want to play video games for at least an hour every week.

PART 1:

Create a two-week chore schedule for yourself and explain why it is the best chore schedule for you.

PART 2:

Create a two-week chore schedule for my son. Some things you need to know:

1. He really doesn't like to vacuum.
2. On Tuesdays and Thursdays, he only has time for one chore because he stays late at school for track and field. He can **either** take out the garbage and recycling **or** wash the dishes.
3. He chooses not to do chores on Fridays because he usually decides to spend time with his friends or watch TV.
4. He can't do chores on Saturday or Sunday mornings because everyone wants to sleep in.
